

MODEL 330A

Automatic Patty Forming Machine

Height: 25"
Depth: 30"
Width: 28"
Volts: 115
Motor: 1/2 H.P.
Amps: 13
Weight: 190 lbs
Cycle: 60 standard/50 available
Production: 1800-2100 per hour
Mold Plate: up to 3/4" thickness in any shape

FEATURES AND FACTS OF THE MODEL 330A:

- Stacks patties perfectly
- Counter top ready
- Quick disassembly for easy cleaning
- Molding capabilities same as larger units
- Automatically interleaves paper between patties
- No need to stop machine to reload paper or product
- Stainless steel cabinetry
- Drive mechanism engineered for increased durability
- Volume and pressure controlled simply with the location of a single ring pin
- 1 year parts warranty

QUICK MOLD PLATE CHANGES

The convenient attachment of the connecting arm allows for quick and easy mold plate and spacer plate changes.

HEAVY DUTY CONSTRUCTION

The Model 330A has a durable cast feeder, a solid steel plate frame construction, and two no. 60 heavy duty rated roller chains.

MOLD PLATE SHAPES

- Virtually any shape can be molded: square, round, oval, chop, homestyle, even meatballs
- Varied thicknesses up to 1-1/2"
- Capable of molding from a fraction of an ounce to 8 ounces

Automatic Patty Forming Machine

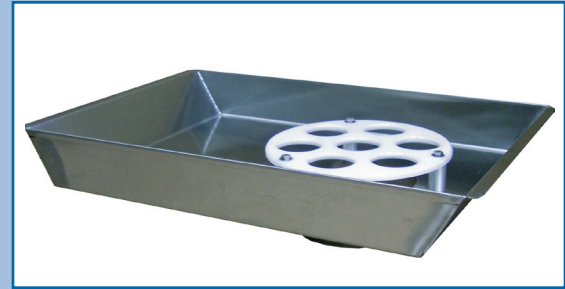

FEED CONTAINERS FOR THE MODEL 330A

LOW PROFILE STAINLESS STEEL FEED TRAY

- 60 lb capacity
- Heavy gauge stainless steel
- 1 piece body

STAINLESS FEED PAN

- 40 lb capacity
- Stainless steel and aluminum construction
- Easy access from all sides

PLASTIC COVERED FEED TRAY

- 75 lb capacity
- Hi-density polyethylene, F.D.A. approved
- Covered for easy operation
- Heavy wall construction

STAINLESS STEEL COVERED FEED TRAY

- 125 lb capacity
- Heavy gauge stainless steel
- 1 piece body construction
- Covered for easy operation
